

REMARKS

The present amendment incorporates the priority claim to U.S. Provisional Patent Application Serial No. 60/263,244 in the specification in accordance with 37 C.F.R. §1.78. Priority was claimed in the application transmittal letter and Declaration when the application was filed. The claim to priority was recognized by the Office as shown by its inclusion on the Filing Receipt and in the patent application publication. Accordingly, the Office will not require a petition under 37 C.F.R. §1.78(a) and the surcharge under 37 C.F.R. §1.17(t) to correct the claim of priority. *See* MPEP 201.11 (D). A copy of the application transmittal letter, Declaration, date stamped postcard, Filing Receipt and cover sheet of the Patent Application Publication are attached. Please note that the copy of the Declaration submitted herewith had a typographical error in the priority document serial number. However, this was subsequently corrected in the Filing Receipt and the Patent Application Publication is reflective of the correct priority document serial number. In addition, the Examiner noted the correct priority document serial number in the Examiner's amendment. Applicant is submitting herewith an Application Data Sheet in accordance with 37 C.F.R. §§1.67 and 1.76. The present amendment does not add any new matter, nor does it necessitate further examination of the application.

Accordingly, entry of the present amendment is respectfully requested. If any fees are required in connection with this matter, the Commissioner is authorized to charge or credit Deposit Account No. 11-0600 for such fees.

Respectfully submitted,

Preliminary Class

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
